“.” Based on projection, your policy will lapse. You may choose to increase your premium or reduce the level of insurance protection, if you want to maintain your policy.

WARNING : YOUR INSURANCE CHARGES WILL INCREASE AS YOU GET OLDER. IN THE LATER YEARS, IT IS POSSIBLE THAT THE ACCUMULATED ACCOUNT VALUE IS NOT ENOUGH TO PAY FOR YOUR INSURANCE CHARGES DUE TO POOR INVESTMENT RETURNS, WHICH WILL RESULT IN YOUR POLICY BEING CANCELLED. YOU MAY NEED TO INCREASE YOUR PREMIUM OR REDUCE THE LEVEL OF INSURANCE PROTECTION, IF YOU WANT TO MAINTAIN YOUR POLICY.

You should ask the agent/broker/financial adviser to explain to you about the insurance charges and its effect on your future insurance coverage.

Notes:

Unallocated Premium - This represents a charge to your premium and is used to meet the direct distribution cost and company's expenses.

Direct Distribution Cost - cost directly attributable to the distribution channel for the sale of this policy, i.e. payments to agent/broker/financial adviser. This cost is paid from the charges that are imposed on your policy for services that the agent/broker/financial adviser will provide to you for the duration of your policy.

Unit Deduction Rider and Rider with Unitization carry the same meaning across all marketing collaterals.

[4] Inclusive of Additional Allocation (if applicable) and Savings Incentive (if applicable). Please refer to Notes section for detail.

SUMMARY ILLUSTRATION:

- This Summary Illustration is intended to show the movements of possible cash flows for the investment and the impact of fees and charges on cash value based on illustration above.
- The projected investment returns used above are for illustrative purposes and not meant to show possible returns of your chosen investment fund(s). They are not guaranteed and not based on past performance.
- Actual returns of the fund will fluctuate (i.e. rise or fall) each year based on the performance of the assets the fund invests in.
- The actual return may even be below the projected rates or negative.
- The projected insurance coverage is merely for **illustrative purposes and not meant to confirm actual insurance coverage**. Actual insurance coverage is subject to HLA's prior approval, policies, terms and conditions. **All applications are subject to underwriting approval.**

Projected Investment Rate of Return

- The returns of Y% and X% have been used respectively to represent the range of possible returns on funds as per table below. The projected investment rate of return below have not taken into account the necessary adjustments due to tax, fund management fees and/ or any other applicable charges.

Funds	Scenario Y	Scenario X
HLA Value Fund/ HLA Venture Flexi Fund/ HLA Venture Growth Fund/ HLA Venture Blue Chip Fund/ HLA Venture Dana Putra	9.00% (First 20 years) 6.00% (Thereafter)	2.00%
HLA Venture Managed Fund/ HLA Dana Suria/ HLA Secure Fund	8.00% (First 20 years) 5.50% (Thereafter)	3.00%
HLA Venture Income Fund	7.00% (First 20 years) 5.00% (Thereafter)	4.00%
HLA Cash Fund	3.00%	2.50%

- o Scenario Y means the investment strategy is performing well.
- o Scenario X means the investment strategy is performing below the average.
- Please refer to the fund fact sheet for the past actual annual investment returns.
- Fund Performance Report offers review and details of HLA Investment-Linked Funds on an annual basis.
- Fund Fact Sheets, Unit Price and Fund Performance Report are available at www.hla.com.my.

IMPORTANT:

THIS IS AN INSURANCE PRODUCT THAT IS TIED TO THE PERFORMANCE OF THE UNDERLYING ASSETS, AND IS NOT A PURE INVESTMENT PRODUCT SUCH AS UNIT TRUSTS.

- You should read this illustration together with the fund fact sheet of the investment fund(s) which you have chosen. The fund fact sheet contains all the important information that you will need to know regarding the investment fund(s). Please log on to www.hla.com.my for detailed fund fact sheet.
- Since only 68% of the Basic Premium for the first policy year is allocated towards the purchase of units, while top-up allocates 95% of the amount towards the purchase of units, you can **maximise your investment value by minimising your annual premium and maximising your top-ups**.
 - o Minimum Annual Target Premium is RM 180, provided that the Total Annual Premium (excluding Top Up Premium) is RM 1,200 and above.
 - o Minimum Regular Top Up Premium Allowed: Not applicable
- Therefore, if your purchase involves a premium of sizeable amount say RM5,000 and above, you should consider purchasing single premium investment linked policy (rather than a regular premium policy) as single premium plans offer better allocation rates for investment.
- Your investment-linked policy will lapse/ terminate if there is not enough units in your fund to pay the charges, Your units may not be enough over the years due to:
 - o High insurance charges if you buy many riders, and especially if the charges are increasing over time as you get older
 - o Poor investment returns
 - o Premium holiday - i.e. if you stop paying premium for a long period of time
 - o Partial withdrawal
